AIMS™
Academic Intervention
Management System

The Academic Intervention Management System (AIMS) is your complete AIS/RtI program that facilitates eligibility, academic identification, intervention enrollment, notes, production of the required Letters of Notification, quarterly progress reports, and Letter of Ending of Services. It is designed to provide each school and/or district with a system to manage and monitor the implementation of the Commissioner's Regulations requiring Academic Intervention Services (AIS) to supplement the instruction in the general curriculum and assist students in improving performance.

- ✓ More than a decade of innovation to meet district needs and State Requirements
- ✓ Easy identification of AIS/RtI student eligibility from assessment data
- ✓ Imports *all* assessment data necessary to track student progress
- ✓ Contains *all* district Interventions and Strategies
- ✓ Click one button for production of *all* required parental communications
- ✓ Imbedded, customizable statements for Letters of Notification, quarterly progress and more…
- ✓ *All* district-approved correspondence/text may be translated to other languages
- ✓ Powerful reports on efficacy of interventions by subject, grade, type, and intensity
- ✓ Provides for access to support services and learning episodes
- ✓ Links to any Student Information System (SIS)
- ✓ Can be linked to additional program data systems
- ✓ Imports all student photos
- ✓ Access to *all* SED requirements, guidelines, training materials, and regulations for AIS and RtI
- ✓ Built-in rollover feature automatically brings student AIS/RtI records into new school year
- ✓ Feedback function allows users to contact support personnel directly when questions arise
- ✓ User management process allows for quick assignment of rights and access
- ✓ Ability to import historical data from existing systems for longitudinal records
- ✓ Web-based with SSL security and HIPAA compliance
- ✓ All information is housed for 26 years
- ✓ Lowest total cost of ownership (TCO) and fastest return on investment (ROI) available
- ✓ Configured and up-and-running in five (5) days or less … *guaranteed*
