DataMate™ is your complete assessment management, development, and delivery system. It is the most effective and efficient way to view and use assessment data to improve student achievement and instructional alignment. Our proprietary DataSync™ Tool links to any SIS and keeps enrollment and course/section/homeroom assignments current.

Free Version: Included with NYS Scoring and Reporting. Has most of the reports that are available within DataMate Live. However, since it does not have the Student Management System (SMS) link, the data distribution is based on what was loaded; it cannot re-roster. Data is available by Assessment, Item, Standard/Skill, Cluster, School, and by District.

Live Version:
- Web based system accessible from any tablet, PC, laptop, or iPad with current browser
- Program is housed at a secure data center; data is not provided to any third-party entity and compliant with the 'Parents Bill of Rights'
- Manages data and analysis for all assessments; Grades 3-8 Standardized State Assessments, Regent exams, district developed or third-party assessments
- Re-rosters students to the current teacher of record
- Reports' drop-down menu offers powerful, informative, and varied views of test data, making analysis easier
- Data displays by Assessment, Item, Standard/Strand/Cluster, Student, Teacher, Course/Section, School, & District
- Reports based on extensive teacher and administrator recommendations, as well as best-of-practice
- Powerful Student Results display on district map using Geocoding and including disaggregation fields
- Customizable reports developed as required
- Miscue reports provide analysis of incorrect percentages by item with distractor identification
- Includes KR20/KR21 report to confirm assessment item validity/reliability
- Stores Test books, Answer Sheets, Scoring Guides, and other Assessment Materials
- Data Warehouse reports show State tests with disaggregated data and comparatives against other Districts, RIC, BOCES..
- Generates Custom Pre-Slugged Answer sheets for all paper-based tests (PBT)
- Has a full Online Assessment platform that allows students to practice their CBT test taking skills!
- Divides student scores by performance levels, provides data on students in each level, and includes a Student portfolio
- Stores data for unlimited years with instant access to historical information
- Syncs with all Student Information Systems (SIS), and imports all student photos
- Teacher level reports provide data on student assessment performance by Homeroom, Course, and Section, providing helpful information for professional development
- Allows districts to securely upload large data files; District maintains ownership of all data; reports export to Excel/PDF

Elite Version: Has all the abilities of DataMate Live in addition to:
- Allows the district to create their own items and assessments
- Has a 35,000+ item bank of questions (and growing), including the past 5 years released NYS ELA, Math, Science, and all Regents Exam questions. Searchable by year, grade, assessment, standard, and keyword
- Answer sheets may be easily uploaded to the server from your copiers (*EVI custom settings*)
- May post student scores to gradebook for Student Management Systems with APIs
- Allows for online scoring of authentic computer-based testing (CBT) items
- Item Randomization for enhanced security
- View Student Status on an assessment
- Assign students to an assessment and creates testing windows/periods and much more…
