

StaffTrac™

The #1 Teacher/ Principal Evaluation Management System

Compliant by State

Your Complete APPR Management Solution Company

"Educational Vistas software helps school districts operationalize current mandates facilitating our ability to implement evolving APPR regulations to include data analysis and the observation process."

Assistant Superintendent

StaffTrac™

StaffTrac™ is your complete teacher-principal evaluation management system, providing a fully electronic process for conducting observations. All rubrics and multiple components of any evaluation may be tailored to mirror your school's process. Administrators/Observers add evidence/comments in the actual domain areas, and ratings/scores are automatically incorporated according to district specifications.

StaffTrac™ provides a process for developing Student Learning Objectives (SLOs). All sections of the SLOs are developed electronically, and targets are scored using growth and achievement measures. They are converted to effectiveness ratings based upon State/District conversion scales and includes tools for adjusting and predicting targets for SLOs. Student assessment scores are linked directly to teachers' rosters using EVI's fully integrated DataSync™ tool that links with any Student Information System (SIS).

StaffTrac™ includes a powerful scheduling component for managing and tracking all meetings, while a human resource component allows immediate access to teacher data, and a Professional Development (PD) module for handling improvement plans, tracking PD hours, managing all professional learning opportunities, and so much more...

INCREASING EFFICIENCY.
REDUCING COSTS.
